

Joanna Kimberly Jamoso

Southville 4 Brgy Pooc Phase 7 Block 11 Lot 9, City of Santa. Rosa Laguna
09913541428 | kimjamoso0@gmail.com

Objective

I'm a fresh graduate passionate about UI/UX design. I have experience using Figma to create clean and user-friendly designs, along with basic knowledge of HTML, CSS, and JavaScript. I'm looking for a team where I can grow, learn more about front-end development, and help build better digital experiences.

Skills

- Customer Service
- Communication
- UI/UX Design using Figma
- HTML, CSS, JavaScript
- Basic WordPress (Content Editing & Theme Customization)

Projects

- WebApp: Programming Language Learning Application**
A web application designed to help users learn programming languages in an interactive and engaging way. The platform offers tutorials, quizzes, and practical coding exercises for languages like C++ and Java. With a user-friendly interface, progress tracking, and personalized feedback, the app makes it easy for beginners and advanced learners to improve their coding skills step by step.
- Point of Sale Inventory**
A Point of Sales and Inventory app created with Visual Basic. It helps users easily track sales, manage products and generate sales reports. The app is user-friendly and designed to make business operations faster and more efficient.
